

## Interactive Elements

- **Mobile Hamburger Menu** – User clicks/presses on menu button in mobile versions of pages and it will drop menu. Click on button again to hide.
- **Accordion in “About” page** – User clicks on headlines and it will drop/hide text underneath headlines.
- **Pop-up ad in “Home” and “About” pages.** Disabled in “Join” page – Ad will pop up on aforementioned pages within 9 seconds of page load. Ad has a button to take user to the “Join” page they can click on if desired.
- **Weather and ceiling conditions for Lebanon NJ (Where Round Valley Reservoir is located).** This won’t interact with user, but will provide real-time information about the weather at the town where the reservoir is located. It will pull info from the free Accuweather.com API.
